No. 165 July 2017

As reported a couple of months ago the completion of superfast broadband to Wrelton was scheduled for the end of June. Despite there been quite a bit of activity between Aislaby and Wrelton it appears the completion date has been moved back by 4 months to end of October 2017! See SFNY reply below to a recent email from Helen Young. Thanks Helen for keeping us updated!

"The project is run in phases, with each new phase started as additional funds are made available. I can confirm that Wrelton is one of the villages included in Phase 2 of that project. The date of June 2017 was the overall completion date as declared at the start of the project.

Phase 2 which is running across the whole of North Yorkshire when completed will make superfast fibre broadband accessible to about 90% of properties in the county. This is therefore a large and complex project. While the majority of villages within this phase have indeed been completed by June 2017 there are unfortunately a small number, including Wrelton, that have encountered problems and as a result the completion of the upgrade will be delayed.

I know that this will be a disappointment to residents. However Wrelton is still scheduled for completion as a Phase 2 village. The response to the new service has been very positive in villages that have recently been upgraded.

FRACK-FREE COMMUNITY WEEKEND

July 8th & 9th (Start Saturday 12pm)

Kirby Misperton Protection Camp.

We are contacting all community groups in the area to let them know of a special event that is going to be held in Kirby Misperton on July 8th and 9th. We would be grateful if you could forward this message to your Newsletter subscribers and if possible display the attached flyer (*see www.wretonvillage.uk*) to let everyone know about this event. It will be a special weekend of celebration and solidarity at the Kirby Misperton Protection Camp featuring:- **Workshops, Live Music, Arts and Crafts, Kids Tent, Welfare & Health, Barbeque and Vegetarian Food, Bake Off etc.**

Dogs welcome - Camping - Parking

With regards to activity in Kirby Misperton, our understanding is that the planning requirements for the KM8 well are likely to be signed off by Thursday 28th July, and Third Energy could try to commence work anytime after this date. The only way we can stop them is if the whole community works together.

So far in the UK, wherever people have taken a stand against unconventional oil and gas extraction, they have won. Let us continue this proud legacy to protect the tranquil rural neighbourhoods we all love so much.

We would like to extend a heartfelt thank you to the community for your kindness to us so far - we are grateful for the opportunity to have made so many new friends and receive support from such unexpected places.

We are aware that not all of our neighbours have visited camp yet, and we hope this will be a good opportunity for our united community to come together - to celebrate everything that has been achieved over the last 3 years and prepare for the campaign ahead.

We hope you will be able to join us. You are always welcome on camp and can contact us by email kmprotectors@gmail.com, by phone 07572068079, or by Facebook (search Kirby Misperton Protection Camp).

In strength and solidarity, the residents of KMPC.

Editors Note: We recently received a request from a concerned resident of Cropton who wanted us to mention in the Wrambler that a licence has been issued for shale gas exploration and extraction at Cropton Banks which may have implications for Wreton. They also asked us to mention the formation of a new group - Frack Free Pickering (find them on Facebook for more info). We sent an email to our newsletter subscribers as the submission was too late for the June edition of the Wrambler. We received an anonymous request via the website, at that time, asking us to provide an "alternative view" of gas exploration and a link to FORGE (Friends of Ryedale Gas Exploration). As yet FORGE have not contacted us but we are providing a link to their website (www.ryedalegas.co.uk) and the telephone number of their representative Lorraine Allanson (07760752165) should you have any further questions.
