### RISING ENERGY COSTS?

Now is the time of year when many energy company tariffs come to an end with subsequent renewals being higher. Our potential new contract would have increased costs by £200 per year however we found a much better offer from "Bulb" a small "green" supplier listed with "Uswitch"

Their quote saves us £180 per year so we are almost back to last years costs, the electricity is 100% from renewables and gas is at least 10% from renewables (animal waste). Unlike the big six they have only one tariff, are on-line and ask for payment by debit card in advance initially but you can change to direct debit. There is no fixed term contract or penalties for switching and they will inform users of tariff changes 30 days in advance. They work out your average cost and increase this by 120% for winter months, obviously reducing during summer!

They do all the switching for you, so if you would like a quote and introductory £50 saving then follow this link - [www.bulb.co.uk/refer/peter9919](http://www.bulb.co.uk/refer/peter9919)

We were sent the following from Mackenzie via her mum Kirsty Williams:-

*"My name is Mackenzie Jordan and I am 16 years old. I have been a volunteer at a local Brownie Group for the past 3 years. I am looking for any babysitting jobs in the local area. If you would like to know more contact me on 07591469847"*

Mike and Lynne Hodgson would like to thank everyone who helped look for Chrissie their dog when she went missing on 4th November.  
Chrissie is safely back home now.

"Thank you to whoever found the trowel we lost at the VH clean-up day and left it at our house while we were on holiday. Peter & Jackie"
