Dear Wreltonians,

As I write this letter, Wayside Holiday Park along with many other holiday parks, campsites etc in the area, are waiting for the go-ahead from the Government to re-open on the 4th July . This will obviously mean that there will be a large influx of people into the area including Wayside HP.

I know this sudden influx of incomers to our area may worry a number of locals, especially in the village but I would like you to know that we are doing everything we can at the park, to reduce to the absolute minimum, any chance that the coronavirus will “raise its ugly head” in our beautiful part of the world.

To that end, I will be writing to all my customers in the next few days outlining a set of rules and regulations that they must follow if they wish to come to the park. This includes the usual distancing and hygiene rules and to help, we will be providing sanitiser, gloves and masks as and where necessary on the premises. In addition we have also made a plea to our owners that when they are out and about, they must consider the local community and avoid unnecessary trips to the village and in fact try and spend most of their time within the environs of the park . To keep unnecessary contact down to a minimum, I also propose to keep the park shut to the general public until further notice, so if walkers , dog walkers, cyclists etc can avoid going through the park it would be much appreciated.

I do hope that the precautions outlined above have gone some way in allaying fears among Wreltonians and hope that as time goes on and the fear of Coronavirus wains, we can get back to some sort of normality.

Keep safe.

DOWN YOUR WAY - Wrelton as it was!

Mr. Corrigan from Cliff Road posted some old postcards of Wrelton on the village Facebook page. This one from 1906 was sent from Wrelton Hall to Connecticut, USA. The postmarks show it left Pickering on December 4th and arrived at its destination on the 12th December! Some internet research shows the recipient was one Charles Sidney Bottomley who was born in Shelf, West Yorkshire in 1866. He moved to America in 1886 to work in the textile industry including the New England Mills Co. We are not sure who the sender was - the initials could be E.T or E.J? Fascinating to think the postcard ended up in Wrelton all these years later. What a journey!
